Ayer Manuscript Collection (Newberry Library) -- Newberry Library. Manuscript map. Ayer MS 1907
1 ms. map : hand col. ; 650 x 1000 mm. in box 88 x 123 x 2 cm.
Manuscript map of Indian origin showing holdings of various Indian landowners from the village of San Francisco Mazapan in 1560 at former Toltec religious center at Teotihuacán (abandoned ca. 800 A.D.); roughly 25 miles northeast of Mexico City. Contains Nahuatl glyphs and accompanying glosses.
Date derived from two similar ms. maps of the same period. One variant is at the American Museum of Natural History in New York. The second dated 1560 in a gloss is reproduced and analyzed in J.M. Arreola's Códices y documentos en mexicano (in M. Gamio's La Poblacion del valle de Teotihuacán, p. 553-8). The American Museum and Newberry copies are reproduced in S. Hagar's Celestial plan of Teotihuacán and the Handbook of Middle American Indians. All three mss. are discussed and reproduced in G. Kubler's Mazapan maps of Teotihuacán in 1560. Not drawn to scale.
Box title: Plan of Teotihuacán.
Dimensions estimated for the original size of the sheet of amatl paper on which the map was drawn; now separated into 6 fragments. Colored inks (black, yellow, green, red, brown, blue) on amatl paper.
Relief shown pictorially.
Map removed from two layers of backing. The first backing contains several printed papal bulls dated Madrid, 1740-1753. The second backing is a paper sheet (70 x 100 cm.) extensively annotated by Mexico City bookseller Wilson Wilberforce Blake, whose ownership stamp, dated July 10, 1891, appears in lower right. Forms part of both the Edward E. Ayer Manuscript Map Collection and the Edward E. Ayer Manuscript Collection (Newberry Library). Kubler, George. Mazapan maps of Teotihuacán in 1560 in Gedenkschrift Walter Lehmann: Teil 2 (v. 7 of Indiana (Berlin, Germany) 1982, p.43-55. Galarza, J. Prelim. check list of the Mexican mss., 1271 c.
Notes on the W.W. Blake backing identify location of stone box in which the ms. was found at Teotihuacán and indicate that the map was in possession of an Indian for years before being sold to Leopoldo Batres. Subsequently acquired by Blake and Edward E. Ayer.

Manuscript. Ayer MS 1620 1 map
Forms part of a collection of photographic reproductions of bills of sale, deeds, wills, and judicial orders in Maya and Spanish from 1642-1761, concerning land transactions and disputes in Ticul in the Mexican state of Yucatan. Most of the documents are bills of sale and titles for land around Ticul, presented to establish claims made in various disputes and lawsuits involving ownership and boundaries of certain parcels. There is also an order of August 26,
1760 requesting parties involved in a land dispute to produce their legal title to the property in question. Several documents pertain to a lawsuit between a group of Indians and the landowner Buenaventura Gutierrez, including this map, showing the location of his land and the names of the boundary markers. The final ruling, handed down in Merida on July 22, 1761 by the governor, determines the papers held by the Indians to have been falsified, and the title to the property held by Gutierrez to be valid. The governor also orders that Gutierrez’s boundary markers be properly registered, and that he be protected from any disturbances on his property. Also included is a will by Joseph Tun, dated Feb. 20, 1746 as he lay on his deathbed, in which he bequeaths his property, known as Zihil, to Manuela Gomez. In Maya and Spanish.

Photographic reproduction from the collection of William E. Gates.

Spine title: 'Documentos de Ticul en lengua maya.'

Four documents on stamped paper for 1735-1761.

Some loss of text due to damage and fading.

The second state of the map, dated 'Ao. 1640' was issued in the ca. 1660 edition of Ritter's book; see Case 3A 2190, between p. 6-7.

United States - Borders - History

Authors: Linklater, Andro
328 p. : ill., map ; 25 cm.
1st U.S. ed.
Includes bibliographical references (p. [309]-316) and index.
Summary: Historian Linklater relates how the borders and boundaries that formed states and a nation inspired the sense of identity that has ever since been central to the American experiment. Linklater opens with America's greatest surveyor, Andrew Ellicott, measuring the contentious boundary between Pennsylvania and Virginia in the summer of 1784; and he ends standing at the yellow line dividing the United States and Mexico at Tijuana. In between, he chronicles the evolving shape of the nation, physically and psychologically. As Americans pushed westward in the course of the nineteenth century, the borders and boundaries established by surveyors like Ellicott created property, uniting people in a desire for the government and laws that would protect it. Challenging Frederick Jackson Turner's famed frontier thesis, Linklater argues that we are defined not by open spaces but by boundaries.--From publisher description.
