## New York State Census, 1925 (Call # Microfilm 337)

Although we have not done a county-by-county check, this census does include all the major urban areas of the state including Buffalo, New York City, etc.

Information categories are the same as in the 1905 census. In the N.Y. State Censuses the geographical parameters are not Wards, but Assembly Districts, designated "A.D." and Election Districts, designated "E.D." The Library does own a very detailed 1915 Assembly District Map of N.Y. City and other metropolitan areas in the state<sup>1</sup> (State Atlas of New York, microfiche 234), providing a block by block map of all major cities in the state by Assembly District, but we have been unable to locate a 1905 Or 1925 Assembly District map.
